

Before the Federal Communications Commission
Washington, DC. 20554
PR Docket No. 93 - 61

RECEIVED RECEIVED

JUN 14 1993

JUN 14 1993

In the Matter of :
Amendment of Part 90 of the
Commission's Rules to Adopt
Regulations for Automatic
Vehicle Monitoring Systems

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY
FCC MAIL ROOM

RM. - 8013

As a user of various products presently operational on 900 MHz I am deeply concerned over the request made by PAC - TEL Teltrac to request changes in the use of the 902-928 Frequency Spectrum. My interests in this band are as follows:

As an engineer with a large airline, we are developing wireless applications on the 900 MHz band using various methods including spread spectrum technology for use through out the country. Manufacturers tell us that they are reluctant to pursue product development if there is a risk of channel forfeiture due to licensing problems with the FCC.

As a consumer of products presently operational on 915 MHz I am concerned that I will be forced to discontinue use of my "Video Rabbit" which allows me to watch a VCR movie in my bedroom on a second TV in my own house. I also use this device to transmit pictures to my VCR without need of a wire to record movies on my VCR as well.

As an AMATEUR Radio operator active on 902 MHz and 915 MHz with both video and voice communication capability I am especially apprehensive of the efforts of PAC-TEL to strip us of our privileges of operation and research.

The Amateur Radio Community has successfully been HARMONIOUSLY
